

TIMES OF THEATRE

Homepage Element Placement Guide

Version 1.0 | Generated: September 21, 2026

EXECUTIVE SUMMARY

This document presents a strategic analysis of the Times of Theatre homepage layout and proposes an optimized element placement hierarchy. The recommendations prioritize user engagement, navigation clarity, and conversion goals while leveraging the organization's rich content library.

1. CURRENT LAYOUT ANALYSIS

Strengths:

- Strong visual hierarchy with theatrical imagery
- Categorized content organization (Theatre, Music, Dance, etc.)
- Multiple featured content sections with imagery
- Good use of white space and visual rhythm

Areas for Optimization:

- Hero section could be more prominent and action-oriented
- Key CTAs (Admissions, Booking, Enquiries) are buried in navigation
- Primary navigation could be more visible for first-time visitors
- Missing clear 'About' or mission statement on homepage

2. ELEMENT HIERARCHY & PRIORITY FRAMEWORK

The following elements are ranked by importance to achieve homepage objectives: maximize awareness, enable navigation, drive key conversions (admissions, bookings, studio inquiries):

PRIORITY	ELEMENT	PLACEMENT	OBJECTIVE
----------	---------	-----------	-----------

1 (Highest)	Logo & Main Navigation	Top (Fixed/Sticky)	Brand identity & navigation clarity
2	Hero/Featured Content	Above Fold	Visual impact & engagement
3	Primary CTAs	Prominent zones	Admissions, Space Booking, Studio Enquiry
4	About TOT Brief	Early content area	Mission & value proposition
5	Featured Content Row	Mid-page	Showcase key programs (Drama, Workshops)
6	Content Categories	Below featured	Organize by type (Theatre, Music, Dance, etc.)
7	Gallery/Performance Showcase	Lower mid-page	Visual storytelling
8	Contact & Footer	Bottom	Secondary engagement & legal info

3. PROPOSED HOMEPAGE LAYOUT STRUCTURE

Zone 1: Header (Always Visible)

- TOT Logo (left-aligned)
- Main Navigation Menu (9 primary sections from navigation guide)
- Search functionality
- Secondary menu toggle

Zone 2: Hero Section (Full Width, Below Fold Entry Point)

- Large featured image with overlay (e.g., current 'Sapan Verma' or rotating featured program)
- Headline + 2-3 line descriptive text
- Primary CTA button (e.g., 'Explore the Archive' or 'Register Now')
- Suggested height: 300-400px for optimal desktop/mobile balance

Zone 3: Quick Action Cards (Three-Column Layout)

Card 1: **School of Drama** | Icon + 'Apply Now' CTA

Card 2: **Book the Space** | Icon + 'View Facilities' CTA

Card 3: **Studio Services** | Icon + 'Get Quote' CTA

Note: These are conversion drivers and should be visually distinct

Zone 4: About TOT Section

- 2-3 line mission statement
- 'Learn More' link to full About section
- Possibly with a supporting image (e.g., theater interior)

Zone 5: Featured Content Carousel/Grid

- Title: 'Upcoming Programs' or 'Featured Highlights'
- 3-4 featured items with images, title, date, and 'Learn More' links
- Rotates monthly or based on current activities
- Categories: Upcoming Performances, Workshops, New Archives, Student Showcases

Zone 6: Content Category Grid

- 3x3 grid of category cards (matching navigation structure):
Row 1: Theatre, Audio Theatre Archive, School of Drama
Row 2: The TOT Space, The TOT Studio, Workshops
Row 3: TOT on YouTube, Gallery, Contact
- Each card has icon, category name, and brief description

Zone 7: Latest News / Blog Updates

- 3-column grid of recent updates with thumbnail, headline, date
- 'View All News' CTA at bottom

Zone 8: Footer

- 4-column footer with:
 - Contact Information & Address
 - Quick Links (FAQ, Privacy, Terms)
 - Social Media Links
 - Newsletter Signup
- Copyright & Attribution

4. DESIGN CONSIDERATIONS & BEST PRACTICES

Visual Consistency:

- Maintain the current dark theme with theatrical imagery
- Use consistent accent color (appears to be deep red/burgundy) for CTAs
- Ensure image quality and proper aspect ratios across all zones

Responsive Design:

- Mobile (320px+): Single column layout, collapsible navigation, full-width cards
- Tablet (768px+): 2-column grids where applicable
- Desktop (1024px+): Full 3-column layouts and multi-zone organization

Navigation Optimization:

- Sticky header for continuous access to main navigation
- Mega menu or dropdown support for multi-level navigation
- Search bar prominently placed for archive exploration

Conversion & Engagement:

- Place key CTAs (Admissions, Booking, Enquiries) in Zone 3 for maximum visibility
- Use contrasting button colors and micro-copy to encourage clicks
- Implement analytics tracking on all CTA clicks for performance measurement

5. VISUAL MOCKUP DESCRIPTION

The proposed layout follows a modular card-based design system suitable for the current aesthetic. Below is a text-based representation of the suggested layout:

The diagram illustrates a website layout for 'Theatre of the Oppressed' (TOT). The layout is organized into horizontal sections separated by thick black bars. The sections include:

- Quick Actions:** Located at the top right, indicated by an arrow.
- About TOT:** A vertical column on the left containing links: 'About TOT', '[Mission Statement - 2-3 lines]', and '[Learn More →]'. An arrow points to this section from the right.
- Upcoming Programs:** A central section featuring a grid of cards: '[Card 1]', '[Card 2]', '[Card 3]', and '[Card 4]'. Below the cards are labels: '[Image+Info]', '[Image+Info]', '[Image+Info]', and '[Image]'. An arrow points to this section from the right.
- Features:** A vertical column on the right containing a list of categories: 'Theatre', 'Audio Theatre', 'School of Drama', '[Icon]', 'Archive', '[Icon]', '[Icon]', 'TOT Space', 'TOT Studio', 'Workshops', '[Icon]', '[Icon]', '[Icon]', 'YouTube', 'Gallery', 'Contact', '[Icon]', '[Icon]', and '[Icon]'. An arrow points to this section from the right.
- News:** A central section at the bottom featuring a list of news items: 'News Item 1', 'News Item 2', 'News Item 3', '[Thumb+Date]', '[Thumb+Date]', and '[Thumb+Date]'. An arrow points to this section from the right.
- Footer:** The bottom section containing links: 'Contact', 'Quick Links', 'Follow Us', 'Subscribe', '[Info]', '[Links]', '[Social Icons]', '[Email Input]', '[Map]', '[Links]', '[Social Icons]', and '[Sign Up Button]'. An arrow points to this section from the right.

6. IMPLEMENTATION RECOMMENDATIONS

Phase 1: Foundation (Weeks 1-2)

- Set up grid system and typography based on mockup
- Build header component (logo, navigation, search)
- Create reusable card components for content

Phase 2: Hero & Quick Actions (Weeks 2-3)

- Implement hero section with image and CTA
- Build quick action cards (Admissions, Booking, Studio)
- Set up responsive breakpoints

Phase 3: Content Zones (Weeks 3-4)

- Integrate About section with dynamic content
- Build featured content carousel with CMS integration
- Create category grid with links to section pages

Phase 4: Testing & Refinement (Weeks 4-5)

- Cross-browser testing (Chrome, Firefox, Safari, Edge)
- Mobile responsiveness testing
- Performance optimization and accessibility audit
- User feedback collection and iterations

7. CONCLUSION & NEXT STEPS

This element placement strategy prioritizes user experience, navigation clarity, and key conversion goals while maintaining the aesthetic integrity of the Times of Theatre brand. The modular structure enables flexibility for content updates and future enhancements without layout restructuring.

Immediate Next Steps:

1. Review this proposal with stakeholders
2. Gather feedback on priority ordering and element placement
3. Proceed to wireframe creation (detailed visual layouts)
4. Begin Phase 1 development once wireframes are approved
